**DETAILED ACTION**

***Election/Restrictions***

1. The previous election of species is withdrawn.
2. This application contains claims directed to the following patentably distinct species

Group I: golf bag with strap attachment: claims 32-39,

Group II: the golf bag with pivotal rack: claims 1-31

To the degree applicant elects claims 1-31 directed to a golf bag with pivotal rack. Applicant is further to elect the following:

Set I: bag structure

Group 1: the bag shown in Figs. 1-2B,

Group 2: the bag shown in Fig. 3-3B,

Group 3: the bag shown in Fig. 6,

Group 4: the bag shown in Fig. 7,

Set II: the rack structure

Group a: the rack shown in Fig. 1,

Group b: the rack shown in Fig. 4.

The species are independent or distinct because the strap set forth in claims 32-39 directed to attachment that is classified in class 224, while the specificities to the rack are classified in class 206. Furthermore, the various embodiments of rack and bag structures are structurally distinct and can be utilized independently.

Art Unit: 3727

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In

either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
